

Articulation Agreement

**Between the
MISSISSIPPI BOARD OF TRUSTEES OF
STATE INSTITUTIONS OF HIGHER LEARNING**

and the

**MISSISSIPPI STATE BOARD FOR
COMMUNITY AND JUNIOR COLLEGES**

REVISED JUNE 2007

Introduction

This articulation agreement contains programs of courses appropriate for transfer for community/junior college students who attend Mississippi's eight public universities. At the bottom of each program are listed the universities which offer the baccalaureate degree program.

Each university will accept courses as listed on the particular transfer program without loss of credit toward the conclusion of the four-year degree. It is intended that this articulation agreement be a minimum program transfer for all students moving from the community/junior college to the university system, as well as moving between universities in the system, acting as a "safety net" for transfer students. It is not intended to replace any individual articulation agreement between a particular community/junior college and a university which would allow additional courses to transfer into a specific program of study.

It is vital that the programs of study be reviewed periodically and revisions made where appropriate. The revision process will encompass the following:

- 1) make editorial changes as needed;
- 2) further standardize the format for programs of study;
- 3) update offerings by universities as needed; and
- 4) keep appropriate officials abreast of changes made by the universities.

It is understood that accreditation agencies expect colleges and universities to evaluate course offerings. It is further understood that community/junior colleges and universities are expected to comply with accreditation requirements and that a cooperative spirit will prevail in working through any needed changes.

Editorial changes made by these committee chairmen shall need no further approval; however, any proposed changes in course offerings or transfer hours shall be made in accordance with the following procedures:

There will be an IHL Articulation subcommittee of the University Chief Academic Officers' Council with representatives to serve on this subcommittee as nonvoting members for information purposes.

- 1) In consultation with Chief Academic Officers each institution shall identify proposed articulation agreement changes to IHL through its Articulation Subcommittee representative by February 10th of each year.
- 2) The IHL Articulation Subcommittee representative and representatives of each academic department/dean's office which offers the program involved shall discuss articulation agreement changes between February 15th and March 15th.
- 3) Proposed changes approved by the Articulation Subcommittee shall be shared by IHL with the community/junior college representatives. Community/junior college representatives shall have until March 30th to review and comment on the proposed articulation changes.
- 4) The IHL Articulation Subcommittee and community/junior college representatives shall meet to discuss proposed articulation changes. This meeting shall take place between April 1st and April 10th.
- 5) Chief Academic Officers shall consider approval of proposed articulation changes at the April meeting.
- 6) Articulation changes shall be communicated to universities and community/junior colleges (presidents and chief academic officers) by June 1st for changes which are to be implemented by the fall semester of that year.

Upon approval, the changes will be published and distributed to the universities and community/junior colleges. It is intended that the document be used as a minimum program of transfer and not replace articulation agreements between individual universities and community/junior colleges.

LATEST ARTICULATION CHANGES AND UPDATES

6/22/2007 Revision: Process for proposed changes to Articulation Agreement was updated.
(Introduction)

6/22/2007 Administration of Justice/Criminal Justice/ Criminal Justice and
Correctional Services Program updated to reflect twelve major hours.
Page 2

6/22/2007 Articulation Agreement updated to reflect that required science
courses taken on-line are not accepted for the Professional Degree
Program at the School of Pharmacy, Medical, and Dental School
Admission at this time.
