

JONES COLLEGE

**Medical Radiologic Technology
(Radiography)**

Program Application

INTRODUCTION

Radiologic Technology offers a challenging career with excellent opportunities for advancement. The profession is in need of both qualified entry level technologists and advanced level specialists.

Jones County Junior College welcomes your interest in radiography. We hope that you will find this brochure both helpful and informative. It is designed to serve as a guide through the application process and to yield a general understanding of the radiographer program. The brochure will provide basic information about the school, the application procedure, student selection, school policies, as well as other useful information. It is not the intent of this brochure to create a property interest in a job for any applicant, student, or employee, nor to become a contract of employment. Jones County Junior College reserves the right to make program changes as deemed necessary.

Applications to the Radiography Program are accepted through February 1st each year. All application requirements must be completed at the time of application. Application information and all supporting documents or materials must be submitted as a complete packet. Partial packets will be returned to the applicant. Only complete applications submitted on or before February 1st will be considered. If you have any questions or need further information, please contact the Radiography Program Office.

SPONSORSHIP

Jones County Junior College assumes responsibility for the Radiographer Program. The program currently has six clinical affiliates. The affiliates are Covington County Hospital, Forrest General Hospital, Magee General Hospital, South Central Orthopedic Clinic, South Central Regional Medical Center, and Wayne General Hospital. The radiographer program is a 24-month educational track leading to an Associate of Applied Science Degree. The college also offers academic courses which can be transferred toward the pursuit of a baccalaureate degree.

PROGAM ACCREDITATION

The program is accredited by:

The Joint Review Committee on Education in Radiologic Technology (JRC/ERT)
20 N. Wacker Drive, Suite 2850
Chicago, IL 60606-3182
Telephone: 312-704-5300
mail@jrcert.org

The school maintains this accreditation through compliance with the "Standards for an Accredited Educational Program in Radiologic Sciences". The accreditation process and compliance with the "Standards" offer both a means of providing public assurance that a program meets accreditation standards and a stimulus to programmatic improvement.

STATEMENT OF NON-DISCRIMINATION

Jones County Junior College does not discriminate on the basis of race, color, national origin, age, sex, or disability in its programs, activities, or employment practices. The following persons have been designated to handle inquiries and grievances regarding the non-discrimination policies: (ADA/ Section 504) Brenay Weems, ADA Coordinator, Student Affairs, phone 601-477-2673; email ADACoordinator@jcc.edu and (Title IX) Brittany Barron, Title IX Coordinator, Hutcheson Hubbard Administration Building, phone 601-477-4127; email brittany.weatherford@jcc.edu. Jones County Junior College, 900 South Court Street, Ellisville, MS DISABILITY CLAUSE

Jones County Junior College students who wish to obtain educational accommodations due to qualifying disabilities should contact Brenay Weems, ADA/504 Coordinator, Student Affairs, 601-477-2673. Documentation of disability may be required. Grievance procedures related to this area are available in this office.

OUR MISSION AND GOALS

PROGRAM MISSION AND GOALS

The mission of the Radiography Program is to provide a competency-based educational program which provides methods of instruction based on student acquisition of academic knowledge, critical thinking and problem-solving skills, and occupational specific skills. The program will focus on meeting the needs of the Radiologic Technology and other medical professions. Faculty efforts will prepare students with skills, knowledge, and confidence to enter and progress in the field of Radiography Technology and become an economically independent, productive, and contributing member of society.

Program Goals:

- 1. Provide quality instructional and clinical opportunities necessary for preparing the student radiographer for the American Registry of Radiologic Technologists Examination and entry into the field of Radiologic Technology. (HHS Goal # 1)**
- 2. Obtain the necessary radiographic equipment, computer hardware, and radiographic software needed to prepare the student for entry level employment and advanced opportunities in the rapidly advancing technological aspects of Radiologic Technology, and to meet all requirements of the State Department of Education's Standards and Measures. (HHS Goal # 2)**
- 3. Provide qualified instructional faculty who maintain current knowledge of the technological and educational trends in Radiography. (HHS Goal # 3)**

STUDENT GOALS and OUTCOMES:

- 1. Students will be clinically competent.**

Student Learning Outcomes:

Students will apply positioning skills

Students will practice radiation protection

Students will provide adequate patient care

Students will demonstrate competence in the operation of imaging equipment for manipulation and processing of the image.

- 2. Students will communicate effectively.**

Student Learning Outcomes:

Students will use effective presentation skills

Students will use written communication skills

Students will demonstrate effective patient communication skills

- 3. Students will use critical thinking and problem-solving skills.**

Student Learning Outcomes:

Students will modify procedure protocol for non-routine examinations

Students will evaluate images for diagnostic quality

- 4. Students will demonstrate professional growth and development.**

Student Learning Outcomes:

Students will understand the importance of professional organizations

Students will demonstrate professional behaviors

Students will respond to ethical situations

- 5. The program will graduate entry-level technologists.**

Student Learning Outcomes:

Graduates of the program will pass the ARRT examination on the 1st attempt

Graduates who pursue employment will be gainfully employed within six months post-graduation

Students enrolling will complete the program

Graduates will be satisfied with their education

Graduates will perform satisfactorily for employers

Carrying out this mission requires teamwork and dedication not only from the college, program, and clinical education centers, but also from you the student. As a student radiographer, your role will be to dedicate yourself to increasing your knowledge of patient care and radiography as you prepare to become a health care professional.

APPLICATION REQUIREMENTS

The applicant must:

- 1. Meet all general admission requirements. (See the College Affairs Section)**
- 2. Submit a completed radiography program application.**
- 3. Be at least 18 years of age prior to program start date.**
- 4. Have a minimum composite score of 17 on the American College Test (ACT)**
- 5. Have a minimum G.P.A. of 2.5**
- 6. Have completed each prerequisite course, with at least a C average, prior to program application. (College Algebra, Computer Applications, English Comp. I, and Psychology or Sociology)**

7. Be able to perform the following functions:
 - Reach and manipulate equipment at a height of six feet.
 - Lift or move objects weighing a minimum of fifty (50) pounds.
 - Stand for lengthy periods (approximately 6 hours a day).
 - Walk long distances in reasonable time (approximately 1/4 mile in 5 minutes).
 - Display good manual dexterity.
8. Complete and submit the first page of the medical examination as part of the application procedure.
9. Individuals seeking admission or students enrolled in any Jones County Junior College designated education program are subject to entrance, random, periodic, and/or probable-cause substance testing.

APPLICATION PROCEDURE

Applications will be accepted through February 1st each year. Only complete application packets will be considered.

On or before February 1st:

1. Submit the complete application packet to include:

1. The applicant information form
2. A.C.T. scores
3. College transcript(s)
4. Report of Medical Examination (1st page only)
5. Reference forms (2), (Preferably one personal and one employer)
6. Substance Testing Policy Acknowledgement Form

- Application packets will be accepted at any time through February 1st for the upcoming class.
- The application materials must be submitted as a complete packet. No individual forms or incomplete information will be accepted. The application packet must include: the application form, the information form, two reference forms, the report of medical examination, ALL college transcripts, A.C.T. scores (if not included on the college transcript), and any other supporting documents.
- Only completed application packets submitted on or before February 1st will be considered.

STUDENT SELECTION

The Radiographer Program is currently accredited for seventeen first-year students. Each application is screened to ensure that the applicant meets all minimum requirements. Thirty-six applicants will be selected to interview for the program. Selection of the applicants for interview will be based on academic achievement and employment history. Applicants selected for interview will be notified of the date, time, and location of the admission interview by email.

The Admissions Committee will select seventeen applicants to become students of the radiographer program. In addition to the seventeen applicants selected, the committee will also select three alternates. In the event that an applicant cannot accept their position, an alternate will be notified and offered the position.

Selection criteria are based on academic records such as G.P.A., A.C.T. scores, completed college course work, work experience, and a personal interview by the Admissions Committee. Selection criteria in each category are weighted as follows:

Academic	70%
Work Experience	10%
Interview	20%

All applicants will be notified of the interview results by mail and/or email provided on the application.

ADMISSION TO THE PROGRAM

The newly selected student will attend an orientation meeting. The date, time, and location of this meeting will be announced in the acceptance letter.

Prior to beginning the program, the student must:

1. Undergo a physical examination and submit an acceptable report of medical examination.
2. Begin hepatitis vaccinations or sign a declination form.
3. Have the Tuberculin Skin Test and Varicella Titer IGG and submit results to the Program Director.

4. Receive and submit verification of all vaccinations required by the program clinical facilities.
5. Complete twenty-four hours of orientation at Forrest General Hospital and Wayne General Hospital before the first day of class.
6. Obtain American Heart C.P.R. certification
7. Submit to finger printing resulting in a clear criminal background check. This will be scheduled by the program after student acceptance into the program.
8. Agree to undergo substance abuse testing at any time.
9. A wireless electronic device (tablet or laptop) is required.

(All related charges for these services are the responsibility of the student)

PREGNANCY POLICY

Female radiography students who become pregnant while in the Radiography Program have the option to inform program officials of her pregnancy. If she chooses to voluntarily inform program officials of the pregnancy, it must be in writing and indicate the expected date of confinement (delivery). In the absence of written disclosure, the student cannot be considered pregnant. The student may un-declare the pregnancy at any time by submitting written notice of declination of pregnancy to the Program Director.

The female radiography student is responsible for adherence to this policy and any results of exposure to radiation during the pregnancy.

If the student elects not to inform program officials of her pregnancy, she should adhere to the A.L.A.R.A. concept, keeping radiation exposure as low as reasonably achievable. According to the Nuclear Regulatory Commission (N.R.C.), radiation exposure for the undeclared pregnant woman is the same as the normal occupational limits for the adult worker, 5 rems per year. However, the undeclared pregnant radiography student should be aware that the N.R.C. indicates that the pregnant woman should not exceed 0.5 rems during the entire gestational period.

If the student chooses to disclose her pregnancy, she has the option of continuing the program without modification or interruption, modifying clinical assignments to reduce the risk of radiation exposure, taking a leave of absence from clinical assignments, and/or taking leave of absence from the program. The student should use all available resources in making an informed decision.

If the student opts to continue the program without modification or interruption, she should adhere to the A.L.A.R.A. concept, keeping radiation exposure as low as reasonably achievable. The maximum allowable exposure for the declared pregnant radiography student is 0.5 rems during the entire gestational period. She should wear two radiation exposure badges, one on the collar and one at the waist, and routinely monitor radiation badge reports. All student radiation monitor badges are provided by the college.

If the student opts to modify clinical assignments, the following recommendations are offered.

Pregnant personnel in Radiology should:

- 1) Not enter a radiation therapy suite during the treatment of a patient.
- 2) Not perform fluoroscopic procedures, mobile radiography, or surgical radiography.
- 3) Remain behind the control panel during any radiographic exposure.
- 4) Wear two radiation exposure badges, one on the collar and one at the waist, and routinely monitor radiation badge reports. The maximum allowable exposure for the declared pregnant radiography student is 0.5 rems during the entire gestational period. All student radiation monitor badges are provided by the college.
- 5) Use extreme care and avoid all radiation exposure possible

If the student opts to take a leave of absence from clinical assignments, she will be allowed to return upon completion of the pregnancy and complete her clinical education.

If the student opts to take a leave of absence from the program, she will be allowed to return upon completion of the pregnancy and continue the program.

The pregnant radiography student who opts to modify clinical assignments, take leave of absence from clinical assignments, or take leave of absence from the program should note that all program requirements, including clinical competencies, must be achieved in order to qualify for program completion/graduation.

ORIENTATION MEETING

Access to the Jones County Junior College Student Handbook and the Radiographer Program Student Manual will be issued at the orientation meeting. The manuals will be discussed, and various forms will be signed. Information contained in these manuals fully describes the responsibilities of the college, the radiographer program, the clinical affiliates, and the student. A thorough reading and familiarization of the manuals will be required of the student. The student will also be required to sign a statement acknowledging the content of the manuals. All forms requiring the student's signature must be turned in before class the first day.

Any questions or concerns of the student, parent, guardian, or spouse should be addressed by program officials before signing any of the forms.

CLINICAL AFFILIATE ORIENTATION

All students selected into the Radiography Program will be required to do twenty-four clock hours (24) clinical site orientation prior to the beginning of class. Each student will sign up for four six-hour rotations. Two rotations will be done at Forrest General Hospital, one early rotation 7:00 a.m. – 1:00 p.m. and one late 2:00 p.m. – 8:00 p.m. The other 12 hours will be completed at Wayne General Hospital, as one early rotation 7:00 a.m. - 1:00 p.m. and one late 2:00 p.m. - 8:00 p.m. Failure to complete the twenty-four orientation hours prior to the program start date, will result in the student's disqualification for entry into the program. The student will be given an authorization form which will have to be completed by the clinical instructor/radiographer on duty at the clinical site.

STUDENT INFORMATION

Financial Information

Information on tuition and fees can be found in the Jones County Junior College Catalog and on the college website, www.jcjc.edu. In addition to tuition and general fees, the student should also expect additional cost during the two-year program. The additional costs are currently estimated to be approximately \$3800.00 during the two-year program. Examples of those additional cost may include: Lab Fees; T.B. Skin test; Hepatitis B Vaccinations; Varicella Titer IGG; uniforms (Minimum of three scrub sets and one lab coat); shoes; books, a wireless electronic device (notepad or laptop), and other educational supplies; optional educational seminars/workshops; liability insurance; school student I.D. patches; organizational membership fees; C.P.R. Certification; and background check and/or finger printing.

This list is not meant to be totally inclusive and also does not include other cost such as transportation, living expenses, etc... This information is offered simply to give the student an idea of potential related cost. Please note that these costs are estimations only and actual cost may vary.

Program Absentee Policy

- The absentee policy of the Radiography Program for didactic classes adheres to the college academic absentee policy provided in the college student handbook.
- Due to the limited time allowed for clinical experience, clinical absences will be limited to two (2) absences per semester in the freshman fall and spring semester, and three (3) absences per semester during the sophomore year. This limit applies whether absences are excused or unexcused. Students exceeding the number of allotted absences will be withdrawn from the class.
- All absences must be reported to the student's assigned area and the program office prior to his/her scheduled arrival. Absences not reported prior to the scheduled report time will result in a five (5) point deduction from the final clinical average for the current semester. (Note: The unreported clinical absence also requires the missed clinical day be made up prior to receiving a grade for the class.) Each absence not reported will be considered a separate incident. (Example: A student ends the semester with a 90 average but has one unexcused absence and one absence not reported. The final grade recorded for this student would be an 80 for the semester)
- Each student will be required to clock in for clinical rotations. In the event the time clock is not in working order, the clinical instructor or shift supervisor must sign the student in and out.

NOTE: Do not clock in for anyone else, nor have anyone clock in for you. This would constitute falsification of records which is grounds for immediate dismissal from the program.

Tardy Policy

- **Students who are tardy for class or clinical will be required to stay that same day to complete the time missed.**
- **For every three tardies, the student will receive a five-point deduction in the final average for the affected course.**
- **Off campus activities will follow the applicable absentee or tardy policy for class or clinical time.**

Leave of Absence

The student may be granted a leave of absence for extended illness or extenuating circumstances. These situations, by necessity, must be evaluated individually.

Counseling

Student counseling is available to students of the program as needed. Students are also interviewed individually each semester by program officials.

Radiation Records

The student's radiation exposure will be monitored and recorded monthly throughout the program. Students are required to review and initial each monthly exposure report.

Classroom/Laboratory COVID-19 Guidelines

The program will follow any guidelines set forth by the college, MS Department of Health and the Center for Disease Control.

Dress Code

The dress code of the program requires the student to purchase a minimum of three uniforms. The student will be required to report for assignments well groomed, wearing a clean, neat uniform each day. There are also additional requirements concerning hair, jewelry, perfume, cologne, etc.... Applicants having questions concerning the program dress code should contact the Program Director/Clinical Coordinator for more detailed information.

Conduct

The student will be required to comply with all rules, policies, and regulations of the college, the program, and the clinical affiliates throughout the program.

THE MEDICAL RADIOLOGIC TECHNOLOGY (RADIOGRAPHY) CURRICULUM

Each freshmen radiography class at Jones County Junior College begins the first summer semester. Students are required to enroll as full-time students each semester throughout the two-year program.

Students receive approximately forty (40) hours of combined classroom instruction, clinical instruction, and practical experience each week during the two-year program. Didactic (classroom) instruction precedes clinical (practical) instruction. The combination of didactic and clinical instruction prepares the student for supervised clinical participation in the Radiology Department.

Clinical scheduling will consist of day, evening, night, and weekend rotations. However, off hour rotations (outside 5am – 7pm) will not exceed more than 25% of the students clinical scheduling.

Didactic and laboratory instruction are offered at Jones County Junior College. Clinical participation and scheduled rotations are offered at the clinical sites. Transportation to and from the clinical sites will be the responsibility of the student.

Grading System

Academic Classes

90 - 100	A	Excellent
80 - 89	B	Above Average
75 - 79	C	Satisfactory
70 - 74	C	Unsatisfactory
60 - 69	D	Unsatisfactory
0 - 59	F	Failing

Clinical/procedure Labs

90 - 100	A	Excellent
85 - 89	B	Satisfactory
80 - 84	B	Unsatisfactory
70 - 79	C	Unsatisfactory
60 - 69	D	Unsatisfactory
0 - 59	F	Failing

Grades are maintained for each individual course. These grades are derived by averaging grades earned from class work, assignments, examinations, and/or clinical laboratory and competency evaluations.

Students are required to maintain the following minimum grade averages to remain in the radiographer program:

75% in each didactic course.

85% in each clinical education course and on each procedure lab or competency evaluation.

Program Description

Radiographers perform imaging examinations and accompanying responsibilities at the request of physicians qualified to prescribe and/or perform radiologic procedures. They utilize equipment emitting ionizing radiation to produce radiographic images of the internal structures of human anatomy. These radiographic images are utilized by the physician for diagnostic and therapeutic purposes. The radiographer is responsible for all functions in the Radiology Department to insure consistent radiographic images and provide for personal and patient safety from ionizing radiation. In addition to producing diagnostic images and primary patient care, other responsibilities may include administrative and educational functions.

Graduates of the program will be awarded an Associate of Applied Science Degree in Radiologic Technology and are eligible to make application to the American Registry of Radiologic Technologists in order to become a Registered Radiographer.

Course Descriptions

The pre-requisite and required courses for the radiography program are listed in the curriculum found in the next section. Descriptions for each course may be found in the college catalog in the description of career and technical education courses for medical radiologic technology. The curriculum and courses are consistent with the requirements of the American Registry of Radiologic Technologists, the Mississippi Department of Career and Technical Education Curriculum Framework for Medical Radiologic Technology, and the American Society of Radiologic Technologists Curriculum Guide. All radiography courses (those labeled with the RGT prefix) are only open to students who have applied and been formally selected as students of the radiography program.

CERTIFICATION IN RADIOLOGIC TECHNOLOGY

The American Registry of Radiologic Technologists is the certification body for graduates of the Jones County Junior College Radiographer Program. Graduates of the program are eligible to make application to sit for the American Registry of Radiologic Technologist's examination. Upon the successful completion of the registry examination, the graduate earns the title of Registered Technologist, Radiography, R.T. (R) (ARRT). (Eligibility for the ARRT registry examination requires that the candidate be of good moral character. Candidates with past misdemeanor or felony convictions are advised to contact the A.R.R.T. to determine eligibility prior to entering the radiography program)

CAREER/EDUCATIONAL OPTIONS

After completing the radiography program and obtaining certification with the American Registry of Radiologic Technologists, the radiographer may choose to: continue his/her education by advancing into other healthcare or imaging specialties, furthering his/her academic education, or considering other career options.

Educational or advancement opportunities in healthcare or imaging specialties include:

**Cardiovascular Interventional Technology
Magnetic Resonance Imaging
Nuclear Medicine
Radiation Therapy
Education
Retail Sales**

**Computed Tomography
Mammography
Radiography Practitioner
Sonography
Management
Traveling (Temp) Radiographer**

PROGRAM STATISTICS

Please review the radiography program statistics found on our web page for information on program performance and graduate success. jcdc.edu/currents_students/health_related_programs/medical_radiologic_technology.

CONTACT INFORMATION

We hope that you have found the information in this application packet and brochure helpful in your career choice. If you decide that Radiologic Technology is the choice for you, we welcome your application. If you have any questions or need further information about Radiologic Technology, please contact:

**Mandy Pearson, M.H.S., B.S.R.T. (R) and Brittany W. Barron, Ed.D., R.T. (R)(M)(CT)(ARRT)
Jones County Junior College
Radiographer Program
Ellisville, MS 39437
Telephone: (601)-477-2416

Equal opportunity is given to all applicants regardless of race, creed, national origin, sex, age, or individuals with disabilities.

I certify that the answers given me to the foregoing questions and statements are true and complete to the best of my knowledge and that I have withheld nothing that would, if disclosed, affect this application unfavorably. I authorize the companies, schools, or persons named herein to give information regarding my employment, character, and qualifications, together with any information they may have regarding me, whether or not it is in their records. I hereby release said companies, schools, or persons from all liability for any damage for issuing this information. I understand that any misleading or incorrect statements may render this application void, and if enrolled, cause my immediate dismissal.

My health information will be recorded on the medical report form supplied by the Radiographer Program and returned to the Program Director prior to February 1st. If selected for entry into the program, I agree to submit myself to a physical examination, by my physician, at my expense.

If accepted into the program, I authorize the school to release to perspective employers any information regarding my enrollment with the school or the information set forth in this application or gained by the school from any other companies, schools, or persons named in this application to give information regarding my employment, character, qualifications, and information they may have, regarding me, whether or not it is in their records. I hereby release the school from all liability for any damage for issuing this information.

**JONES COLLEGE
SUBSTANCE TESTING ACKNOWLEDGEMENT**

As a student enrolled in a Designated program of a Jones County Junior College (Jones College), I have received the Substance Abuse Policy for Career and Technical Programs and understand that I must submit to drug and/or alcohol testing and the subsequent release of testing results. Failure to consent to testing or failure to authorize the release of test results to the college will render the student ineligible for admission or continued enrollment in the program.

THEREFORE:

I hereby consent to provide hair, urine, blood, or saliva specimens and to the testing of those specimens by any agency designated by Jones College (JC). I release and discharge JC and its employees from any claim or liability arising from the use of such test for any decision concerning admission or retention in any designated program based upon the results of such test.

I release and discharge the substance testing agency, its officers, employees, agents and representatives from any and all liabilities arising from the authorized release or use of the information derived for or contained in my test results.

If the initial results are positive, I may choose to be re-tested. If I elect to be re-tested, this must occur upon notification of the positive results. I also understand that I will be responsible for all costs incurred for re-testing.

I hereby authorize the testing agency designated by Jones College, to release to the college and/or its designated agents, the results of the laboratory tests.

I expressly understand and agree that these test results will be reviewed by the appropriate college designee for the sole purpose of making a determination concerning my admittance or retention in the designated program. I also understand and agree that the college will not disclose any information released pursuant to this authorization unless expressly authorized by me, this policy, or unless such disclosure is required by clinical affiliate protocols for clinical experiences or required by law.

This authorization shall become effective immediately and remain in effect throughout my enrollment in the program. I understand that I have the right to receive a copy of this authorization upon request.
