

POULTRY SCIENCE

JCJC CURRICULUM SHEET - MSU

Students majoring in Poultry Science have the option of following a management or business course of study in pursuing an undergraduate degree. Most undergraduates pursue the management option and they should follow the prescribed course of study listed below. ***Students pursuing the poultry science business option must take these business courses in addition to those listed below: ACC 1223, ECO 2113, and ECO 2123.*** A student who plans to work in an off-farm agricultural profession can greatly enhance his or her training for a particular specialty by carefully choosing the courses in the chosen area of interest.

The student should consult the catalog of the senior institution for specific admissions procedures and other details concerning the program of study.

This CHECK SHEET should be used to keep a careful record of grades for each of the courses and should be presented to the student's advisor for planning the schedule of courses each semester at JCJC.
