Because Jones College is committed to providing a safe and healthy working and learning environment for the students, faculty, and staff on its campus, it hereby adopts the following smoke-free and tobacco-free policy.

### Section 1. Findings and Intent.

The 2006 U.S. Surgeon General’s Report, *The Health Consequences of Involuntary Exposure to Tobacco Smoke*, has concluded that (1) secondhand smoke exposure causes disease and premature death in children and adults who do not smoke; (2) children exposed to secondhand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks, and that smoking by parents causes respiratory symptoms and slows lung growth in their children; (3) exposure of adults to secondhand smoke has immediate adverse effects on the cardiovascular system and causes coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to secondhand smoke; (5) establishing smoke-free workplaces is the only effective way to ensure that secondhand smoke exposure does not occur in the workplace, because ventilation and other air cleaning technologies cannot completely control for exposure of nonsmokers to secondhand smoke; and (6) evidence from peer-reviewed studies shows that smoke-free policies and laws do not have an adverse economic impact on the hospitality industry. (U.S. Department of Health and Human Services. *The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Report of the Surgeon General*. U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Office on Smoking and Health, 2006.) The smoking of tobacco, hookahs, or marijuana and the use of Electronic Smoking Devices (ESDs) are forms of air pollution and constitute both a danger to health and a material public nuisance.

Accordingly, the Jones College Board of Trustees finds and declares that the purposes of this policy are (1) to protect the public health and welfare by prohibiting smoking and the use of tobacco products, including ESDs, on all Jones College campuses; (2) to promote the right of nonsmokers to breathe smoke-free air, while recognizing that the need to breathe smoke-free air shall have priority over the desire to smoke; and (3) to encourage a healthier, more productive living/learning environment for all members of our campus community.

### Section 2. Definitions.
